LEVEL GREEN

Well, as it now seems that winter is over and I feel somewhat improved in health, I write again. Rain, sun, warm days and other encouraging signs of spring are in the air. Even the blue bird that has been absent for 4 years has come again, the frog and woodpecker are here too, the gardens are being broke, potatoes planted and mustard and lettuce sown—all these are unmistakable signs of the fulfillment of a promise made to Noah; "Seed time and harvest shall continue." And did you ever think Mr. editor, these things will go on just as they now do when we are forgotten and while we, perhaps for thousands of years, sleep a dreamless sleep?

Measles has been rampant with us for two weeks. Those who first took it have about recovered tho' and the next crop is blooming. Farmers are further in the rear with their work than usual at this date. No oats sown and but little corn soil broken. They are preparing to sow more grass and clover than they usually do. The wheat crop in general is not hurt, yet some special fields as crops, are ruined.

The lamb crop, tho' a little late, is quite numerous, and as a general thing they are strong healthful fellows. We have 9 lambs with 4 ewes. Can any of you beat that? No lamb buyers have been among us yet, but it is thought that good lambs will bear a big price. Cattle all sold that can be reached now. Those who have cattle to dispose of now would do well to avail themselves of the present high prices and sell. There are not hogs enough left among us to make one big boo. Corn and bacon, the crutches of life are slowly climbing higher and higher. Eggs, the housewife's best friend, has spun down to nine pence and I can't tell how much lower they will go, for Congress neglected to put any tariff on them. They never look after the interests of the poor. How easy it would have been to just stick on a little tariff and eggs would have clim right up, but no, this would have bin softening in the poor man's job a little and he is becoming too self-supporting now to suit the rich—gettin too independent, don't have to work every day and half the Sundays now in order to keep the wolf from the door.—Hoorah for the poor man with his big tater patch and two or three dozen good hens and two cows—well they just actually will support a big family, and most of poor men raise large families.

News items are very scarce here now. Another of our family went West last week to get fat with the country.

Is it a fact that we can offer our sous no inducements that will keep them in Kentucky. We certainly have a good country right here—much better than that found in many other places. We can raise all kinds of cereals to perfection, all the grasses, vegetables yes, plenty of them, and tobacco as fine as ever grew, and land is so cheap that any man who wants to, can own a home of his own, but then our roads, how about them—well, they are simply awful and we are too poor to help ourselves. We must simply trudge along in the same old rut until another generation and a whole lot of immigrants take the place of us old moss backs.

Our times (you of my age) is not long for this world at best and we should do one thing at least for which posterity will bless us when they remember and speak of us in years to come, and we could do nothing worth more to our people than to build some good roads. If the good road cause is dead in Rockcastle I want to know that there is yet a living sentiment among our people that may some day bear fruit.

The bride-to-be wished to marry at her old home, the residence of the late David Cloyd, hence the arrangement.

Our quiet little town was somewhat waked up a few days since by the news, that two of our popular young people had taken snap judgment on the folks, and gone over to Lexington and got married. The bride, who was Miss Ada McWhorter, is one of Lincoln county teachers, a pretty and lovable young lady. The groom, W. D. May life's choicest blessings be theirs, and may they live to enjoy long the blessings of a well spent life and be prepared for eternal happiness in the world to come, is the sincere wish of the writer.

Dillon, and many others whose names we are unable to obtain, before going to press, have worked faithfully to have an exchange established in that bustling town. The franchise was granted some months since but the weather prevented the construction of the plant. We are told by Mr. Maret, county manager, that as soon as the Livingston exchange is established that all subscribers on his system can exchange messages between each other without further cost than monthly phone rental. Many improvements have been made on the Rockcastle system within the last two months and more are being made. His patients can be found in many parts of Kentucky who will testify to the wonderful skill of Dr. Burdette in treating the optics.

Our town trustees met this week and made an order that the sidewalks in town be remodeled and put down at once. It has stirred up quite a kicking on the part of a few, but Marshal J. E. Wallin says he will carry out the order to the letter, and that he will know no pets, and all will have to fix the sidewalks alike. Mr. Wallin is a determined and resolute man and we can vouch that he will do his duty as an officer of the law. CRADDOCK'S SPEECH.

After Mr. Cleveland had been
elected President, and the first time
a crowd of excited and happy
Frankfort Democrats, loaded with
liquor and armed with a brass band,
were parading the streets. Finally
a happy thought struck them.
They concluded to go and serenade
Craddock, the Nestor of Democracy.
They immediately headed for his
residence, and when it was reached,
commenced a perfect bedlam of
noise and confusion amid cries of
"Craddock, Craddock, Craddock."

At length the old man appeared
on the balcony. He had not gone
beyond the expression, "Fellow
citizens," before the crowd broke
loose. He essayed several times to
speak, without success, by reason
of which he became exasperated.

At length the crowd quieted
sufficiently for his voice to be heard,
but his patience by this time was
entirely exhausted.

"Fellow citizens," he began, for
the last time, while the sarcasm of
his remarks was illy concealed.
"Democrats, hoodlums, darned
fools, blatherskites, I bid you good-
night."—Ex-Gov. Bradley in Sun-
day's Enquirer.

Repairing Neatly Done

Never thought of such a
sign for a medicine did you?
Well, it's a good sign for
Scott's Emulsion. The body
has to be repaired like other
things and Scott's Emulsion is
the medicine that does it.

These poor bodies wear out
from worry, from over-work,
from disease. They get thin
and weak. Some of the new
ones are not well made—and
all of the old ones are racked
from long usage.

Scott's Emulsion fixes all
kinds. It does the work both
inside and out. It makes soft
bones hard, thin blood red,
weak lungs strong, hollow
places full. Only the best ma-
terials are used in the patching
and the patches don't show
through the new glow of health.

No one has to wait his turn.
You can do it yourself—you

and the bottle.
This picture represents
the Trade Mark of Scott's
Emulsion and is on the
wrapper of every bottle.

THE PROUD LITTLE DOG.

One of the characters of Madison
County was Wyatt Pinkston. He
was a great judge of dogs, a worth-
less vagabond, but shrewd and
quick, and made a living by his
wits. He was frequently in Court,
and many of his bright sayings have
been treasured up by those who
knew him best. One of his re-
markable experiences was his testi-
mony in the case of old Colonel T.,
Captain L. for damages because of
the killing of a favorite young
hound.

Pinkston was introduced by the
defendant as an expert to prove the
value and character of the animal.
After having stated that he was a
judge of dogs, had great experience,
had dealt in them for years, owned
a great many, had hunted foxes,
rabbits, coons, &c., &c., and had
been a dog trainer of established
reputation for many years, he was
asked to state whether he knew the
dog in dispute and his value and
character.

"Well," with deliberate emphasis
he answered, "I reckon I do. I've
known that dog sence he were a
pup. After he had retched full
doghood he were the proudest thing
I ever seed. He had a mighty purty
tail, and no dog ever knowed it
better. It curled over his back like
a wheel rim. He were all the time
a playin' with himself and a tryin'
to put on style. He didn't think
there was any other doy in the
county."

"Well, he commenced a curlin'
of his tail and he curled it tighter
and tighter until he got it curled so
tight he could not get his hind leg
off'n the ground. He hadn't got
over this thing entirely when he
was killed and he was as no account,
worthless a hound as I ever seed.
He wasn't worth a cut nine-pence."
—Ex-Gov. Bradley in Sunday's
Enquirer.
